PROFILE

Photographer and documentary filmmaker with years of experience leading international groups. I film and photograph real journeys outdoors, most recently a solo multi-day trek across Lofoten, above the Arctic Circle (Norway, 2026), and publish documentaries on my own YouTube channel. I am an EASA-certified drone pilot and work with Sony A7 III and A6700 cameras.

For seven years I worked as a tour coordinator and group leader, taking groups of up to 40 international travellers through Portugal and Spain. Today I work at Øksnehallen (DGI Byen), one of Copenhagen's largest event venues, in long and physical shifts with international crews. Patient, practical and calm under pressure. Speaks Portuguese, Spanish, Italian and English. B driving licence. Italian and Brazilian dual citizen with full EU work authorisation.
